

Job Description

POSITION SPECIFICS

Job Title:	Senior Mechanical Engineer
Department:	Engineering
Reports To:	Engineering Manager

ROLE

Summary: The Senior Mechanical Engineer will lead a small team of mechanical engineers and drafters to design plumbing and HVAC systems for commercial buildings. Candidate will interface directly with clients and design/construction team members.

Essential Duties and Responsibilities include the following. Other duties may be assigned.

- Works closely with project consultants and interface with internal project team members.
- Support the development and implementation of standard engineering department calculations, processes, and procedures
- Provide mentorship to current engineers and designers
- Provide engineering support for Sales, Estimating, and Project Managers
- Performs field surveys.
- Prepares and reviews drawings and calculations for plumbing, piping, and HVAC systems.
- Prepares and reviews load calculations (Using Carrier HAP).
- Review equipment submittals, specs, and sequence of operations.
- Review shop drawings.
- Equipment and component selection for plumbing, piping, and HVAC systems.
- Participate in value engineering exercises
- Work internally with construction team to solve constructability issues
- Coordinate with operations staff to standardize equipment and ensure quality control
- Develop positive relationships with customers, subcontractors, vendors, and fellow employees
- Coordinate with engineering manager to prioritize department training needs
- Work with administrative staff to complete permit documentation
- Work with city and state review officials to provide approved design documents

Supervisory Responsibilities

This position may supervise others including Mechanical Drafters on an ongoing or project basis.

QUALIFICATIONS

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required.

- Commitment to supporting aggressive project deadlines.
- Strong technical understanding of engineering principles
- Works well with internal and external team members
- Detail oriented
- Positive attitude
- Strong communication skills

Education/Experience

Bachelors of Science Degree in Mechanical Engineering from a four year college or university, plus minimum of ten years related experience in construction industry or applicable experience in similar field.

- HVAC, plumbing, hydronic piping and natural gas design experience is required
- Medical gases, laboratory gases, green system designs (such as solar hot water, composting toilets, rainwater harvesting, etc.), clean room/laboratory design experience is preferred.
- Understanding of Uniform Plumbing Code, International Mechanical Code, Seattle & Washington State Energy Code, and other building life safety codes

Computer Skills

Proficiency with Microsoft Word, Excel, and Outlook required. Current versions of AutoCAD and Revit MEP proficiency; Bluebeam

Preferred Certificates and Licenses

- Washington State registered professional engineer
- LEED accredited
- ASHRAE or ASPE membership

I certify that the information given by me is true and complete to the best of my knowledge. I understand that if I am employed, the discovery that I gave false information during the application process may result in immediate dismissal.

I authorize the Company to which I am providing this application (Auburn Mechanical) to investigate all statements contained in this application and to request information about me from previous employers, educational institutions, and references. I expressly authorize my previous employers to provide information and opinions concerning my work and work habits. Further, I release all parties (including Auburn Mechanical) and persons connected with any requests for information from all claims, liabilities, and damages for whatever reason, arising out of furnishing any information. If employed, I release Auburn Mechanical from any liability for future references it may provide regarding my work history with Auburn Mechanical.

Due to the large number of applications that Auburn Mechanical receives, I understand Auburn Mechanical cannot guarantee that my application will be considered for any or all open positions they or Auburn Mechanical may have or that my application will be considered for any specific time.

In the event of employment, I understand that I am required to abide by all current and subsequently issued rules and regulations of Auburn Mechanical and that my employment and compensation may be terminated, at any time, with or without notice, by either party.
